

Umbrella Catalogue

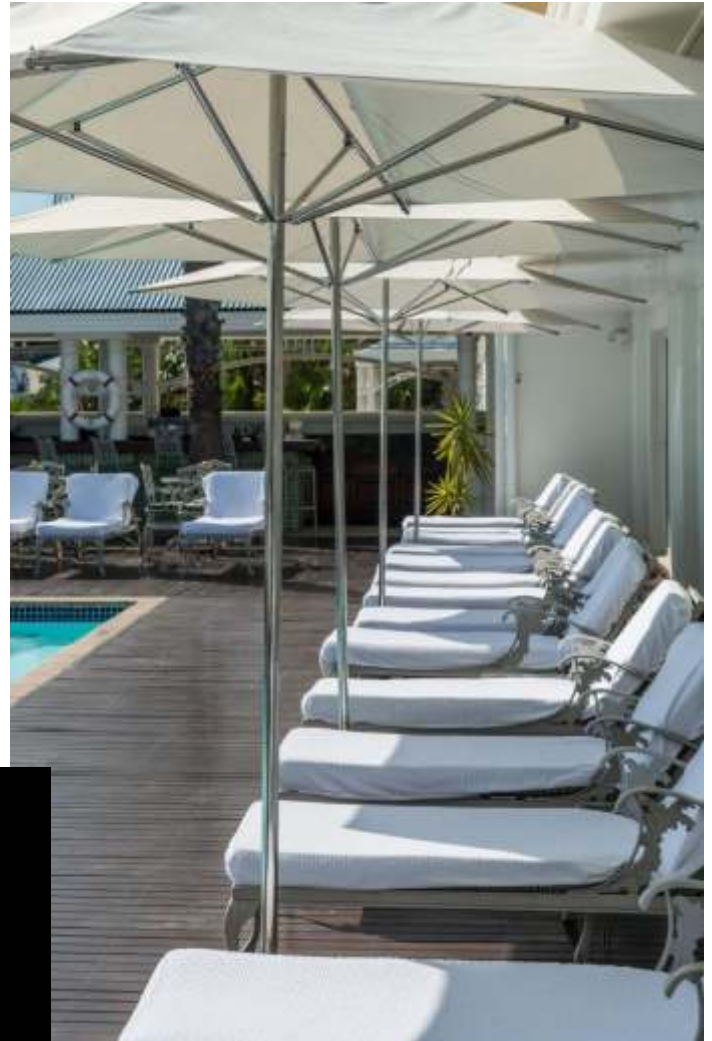

November 2019

All of our umbrellas are manufactured in Cape Town. Renowned for its natural beauty and the Cape Doctor, our strong prevailing South East wind that keeps the air clean and fresh. Thus we are well experienced in dealing with vigorous winds. Our umbrellas undergo extensive wind endurance tests to ensure they're able to handle severe weather conditions. However we always advise to close umbrellas in high winds.

All our Umbrellas are covered by a THREE YEAR WARRANTY (Terms & Conditions Apply)

BRANDING

Make the most of branding opportunities. Showcase your logo on the umbrella canopies with traditional five colour SCREEN printing. Or go all the way with full colour DIGITAL photo quality printing, no holds barred and with exceptional colour fastness.

We also brand umbrellas covers and if you are really looking at making a strong statement we can laser engrave stainless steel plates on the lifting handles of the bases.
